

## ABOUT THE INSTITUTION

Sri Ramakrishna Institute of Technology (SRIT), an autonomous institution affiliated with Anna University, is a leading hub for engineering education and research in Coimbatore. Since its inception in 2002, SRIT has nurtured skilled professionals with strong technical expertise and ethical values. Managed by the prestigious SNR Sons Charitable Trust, it is part of a network of 17 renowned institutions spanning various disciplines. The vision of the institution is to produce industry ready graduates by equipping them with expertise in the latest technologies and ensuring they are well-prepared to meet industry demands while contributing to technological and societal advancements. SRIT focusses on research innovation and industry collaboration with global leaders such as Alibaba Cloud, Singapore, & Device Electronics, Pune and has established centres of excellence in the areas of Cloud Computing, Electric Vehicles and IoT.

## ABOUT THE DEPARTMENTS

The Departments of Electrical and Electronics Engineering & Electronics and Communication Engineering, accredited by NBA were established in the year 2002. The academic programs offered in the departments are B.E (Electrical and Electronics Engineering) & M.E (Power Systems Engineering,) and B.E (Electronics and Communication Engineering) & M.E (Communication Systems). Both the departments are recognized as Centre for Research by Anna University, Chennai and offers specialization courses with additional 20 credits in the areas of IoT and Electric vehicles in collaboration with Device Electronics, Pune.

## CONFERENCE PREAMBLE

The aim of this conference is to unite esteemed researchers, distinguished academicians, industry pioneers, and aspiring students to delve into the transformative impact of Artificial Intelligence (AI) on sustainable electronics and advanced wireless communication systems. Serving as a premier platform, this event will foster insightful discussions on notable AI-driven innovations, eco-conscious solutions, and energy-efficient wireless technologies, shaping the future of intelligent and sustainable systems.

Conference Domains include (but Not Limited to)

- Artificial Intelligence in IoT & Cyber-Physical Systems
- AI in Robotics & Autonomous Systems
- AI for RF & Microwave System Design
- AI-Enhanced Signal, Image & Video Processing
- AI in MEMS & Nano Electronics
- Computer Science & Computational Intelligence
- Data Science & Intelligent Analytics
- AI-Driven Healthcare Innovations
- Electrical & Electronics Intelligent Systems
- Convergent Technologies & Future Trends
